## Why is QA/Accreditation Important FOR YOU?

CUFE has always been a leading institution in the Arab World (Established in 1905 as the first Engineering School in Egypt and the Arab region).

In 2018, CUFE ranked 250 within the Engineering Institutions in the world, and ranked the 1st in Egypt and Africa according to QS.

CUFE aims at continuously improving its position among national and international institutions, and this requires continuous self-assessments to detect points of strength and/or weakness and work on them. That is why the QAU is working on a multitude of activities to achieve this goal. One means of doing this, is through surveys managed by QAU including ILOs, Instructors and Exit surveys.
**REMEMBER**

* Being a graduate from an accredited institution maximizes your chances to get job offers and be sought after by national / international employers.

* The accreditation of your institution facilitates your process if you are intending to continue your undergraduate/postgraduate studies in another international institution.

## National and International Accreditations

CUFE labs, departments & programs started the steps towards national and international accreditation:

**uia**
International Union of Architects

In 2017, the Department of Architecture was unconditionally revalidated for 5 years by the UNESCO-UIA Validation Committee.

In 2019, AET, the Architectural Engineering and Technology-Credit Hours Based Program, was unconditionally revalidated for 5 years by the UNESCO-UIA Validation Committee.

**NAQAAE**
National Authority for Quality Assurance & Accreditation of Education

In 2016, **CUFE** was **accredited, as an institution**, by **NAQAAE** Accreditation of Institutions **for 5 years**.

**ASIIN**

The Master's degrees programme:
1. **"Renewable Energy and Energy Efficiency for the MENA Region"**
2. **"Urban Design: Revitaliztion of Historic City Districts"**
were accredited in 2018 for 7 years by **ASIIN**.

**Accredited Labs**

**Irrigation and Hydraulics Lab**
ISO/IEC 1705:2005
**Measurement & Calibration Lab**
ISO 17025
**Mechanical Testing Lab**
ISO 17025
**Medical Equipments Calibration**
ISO 17025

## What is Quality Assurance Unit (QAU)?

QAU is the unit responsible for acquiring the culture of continuous improvement and total quality assurance through increasing the understanding of the concept of quality and spreading quality awareness among CUFE academic, administrative as well as student community.

QAU activates and monitors the quality assurance procedures in all the education system components in CUFE. It also assists the institution and its various programs in their steps towards international, regional and local accreditation and recognition.

QAU is an intertwined effort of the following parties to ultimately improve the outcomes of the education process.

## STRATEGIC GOALS OF CUFE QAU

### QAU strategic goals include

The development and implementation of an evaluation system for: students; courses and educational programs at CUFE.

Full and realistic diagnosis of the performance limitation at the Faculty level and proposing and developing solutions and plans for continuous improvement in various areas.
